

Tournament Regulations

1. Tournament mode

In the preliminary round each team plays once against all teams in their groups. The rank in the group is determined by a.) the points, b.) goal difference, c.) achieved goals d.) direct match against the team. If there is a team missing at the beginning of a game, the game ends with 1:0 for the opponent. After the preliminary round and a remis, a 7m-penalty shootout (3 players, then one and one until all players including the goalie have shot) decides who goes through to the next round. If the team size of the teams is different, the same amount of players have to shot until the first one can start again! If the penalty is shooten wrong (f.e. stopping before shooting) and the penalty was a goal -> the penalty has to be repeated. If the penalty was missed, the penalty counts – even if something was wrong. Goalkeeper can be changed during shootout.
